

## POLICY 2.1 OVERWEIGHT VEHICLES

---

Department: Administration

Date Approved: March 13, 2013

Rescinds: 11/10/22/12

Board Res. No: 039/03/13/13  
112/10/22/12

---

### PURPOSE:

To discourage excessively overloaded trucks from traveling to the Landfill. This policy demonstrates commitment to safety at the landfill and also on area roadways.

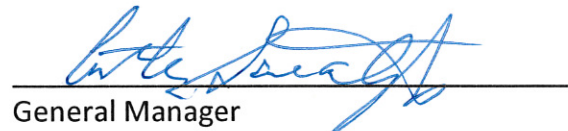

### SCOPE:

This policy applies to all vehicles that access the landfill. Overweight vehicles can cause damage to the infrastructure including the scale, roadways, and present a hazard for dumping.

### POLICY:

1. All vehicles will be subject to suspension for carrying excessive weights.
2. All vehicles will have an allowable overweight of 1000 kilograms per axle group, excluding steering axle. Any vehicle exceeding this amount will be subject to a suspension from the landfill property as follows:
  - 1<sup>st</sup> offense, the driver will be issued a written warning.
  - 2<sup>nd</sup> offense, 24 hour suspension for driver and truck from entering the landfill.
  - 3<sup>rd</sup> offense, 72 hour suspension for driver and truck from entering the landfill.
  - Every additional offense, +24 hour suspension for driver and truck from entering the landfill.
3. All offenses will be on a per year basis, and all offenses will be cleared after a one year period where no suspensions have been issued.
