

2017 Projects and Improvements

- Construct an Alberta Environment and Parks approved Class III Compost Facility
- Add an additional yard waste drop off depot on Peace River's East Side
- Continue with the design and approval process of our new Greenzone Class II Landfill
- Cap and close 2 cells in the Municipal Waste Landfill
- Construct 5 new cells in the Industrial Landfill
- Participate in the Government of Alberta's Summer Temporary Employment Program (STEP) by hiring 3 students for litter control and yard maintenance.
- Added the additional service of Confidential Document Shredding at the Eco Centre
- Reconfigure some services and add parking to the Eco Centre to create better flow and enhanced public safety
- Removal of all Wood Burning Pits at the Transfer Stations
- Cleanup and remodeling of transfer stations
- Participate more with the TOPR's Spring Cleanup by adding a recycle depot at their site
