

*****MOVED SERVICE*****

We have moved the grass/leaves & brush/branches bins from the Fountain Tire location to their new location between All West Glass & Buchholtz Financial.

These bins are intended for residential use ONLY! For landscaping businesses and commercial loads please go to the East Peace Regional Landfill.

Please do not put used lumber or pallets into the bins. Lumber and branches larger than 2" in diameter must be taken to the East Peace Regional Landfill.

Please empty your bags of grass/leaves into the grass/leaves bin and place your used emptied bags into the waste container provided in the middle of the two bins.

Please do not overfill these bins. These bins will be considered full when they are level with the top of the bin. Additional composting bins are available at the Eco Centre. You may also take your compost loads to the East Peace Regional Landfill.

Please watch your footing on the platform and stairs. Do not lean or climb into the bins.

This service is being offered on a trial basis and any misuse will result in the bins being removed.

Thanks for your cooperation...PRWMC MANAGEMENT & STAFF
