RE: Rate Change to take place July 1<sup>st</sup>, 2021

The Peace Regional Waste Management Company (PRWMC) is writing to give notice that the tipping fees at the East Peace Regional Landfill for waste disposal services will be increased. The new rates listed on the accompanied rate sheet will take effect on July 1<sup>st</sup>, 2021 and on January 1<sup>st</sup>, 2022.

PRWMC landfill rates are competitive and are below regional averages charged by other landfills. For many years, PRWMC has provided subsidized rates for services provided to both residential and commercial customers. The cost of these services has been partially paid for by the revenue generated from our oilfield and industrial waste streams. Unfortunately, the volumes of these streams have decreased dramatically in recent years to the point where they no longer generate extra revenue. After much deliberation, the PRWMC Board of Directors have decided that without this extra revenue, we must raise our tipping fees to remain a sustainable operation.

The Peace Regional Waste Management Company hopes that our rational and early advance notice of this change allows your company time to make any necessary adjustments to your business plans.

Please do not hesitate to call me at 780-624-4182 for further clarification.

Sincerely,

Art Sawatzky  
General Manager  
Peace Regional Waste Management Company
